 - [Getting kicked out every so often then not able to log back in](#)

Installing XRDP

1. `sudo -i`
2. `apt install xrdp -y`
3. `systemctl status xrdp` (Make sure xrdp is running)
4. `systemctl enable xrdp` (Start on Startup)
5. `ufw allow 3389` (RDP port)

Known Issues and Fixes

Getting kicked out every so often then not able to log back in

1. `sudo apt install dbus-x11`
2. `dbus-launch`
